

MUC 4313/5315

## **Introduction to Electroacoustic Music**

### Music Project 3

In this project we are weighing yet more towards musicality rather than practicing specific techniques. You are free to adopt everything you have learned so far as well as any other techniques not discussed in class such as midi. Listen to the pieces introduced in class and let them inspire your ideas to create a piece roughly 90 seconds long.

**Project due date:** Friday, Nov. 17
